I. Introduction

II. Public Input

III. Presentations and Discussion

IV. Unfinished Business
   a. SHIP FAQ Flyer (Maria)
      i. On the back of the agenda, the SHIP FAQ is printed (a copy will be below)
      ii. Handout to navigate SHIP – still working on a title.
      iii. Feedback
         1. You CAN waive SHIP in the middle of the year. A waiver period is at the end of each quarter, to waive for the next.
         2. Note that RAFT is NOT insurance.
         3. SHIP fees paid in Spring will cover them through the summer, until Fall quarter begins.
         4. Andrew will draft the step-by-step for the apps. Medical, pharmacy, dental, and likely vision, will each have separate apps.
         5. If someone does waive SHIP, and their previous insurance is terminated, is it required that they then enroll in SHIP? Clarify in sentence that you have to enroll in SHIP, that proof of insurance is mandatory.
         6. Why do we need the UC SHIP app? If you want to download your insurance card, it will be on there. SHIP was wasting too much money on pamphlets, so they made an app. You may request a physical insurance card, but now it will be on the app. The app acts as your insurance card. Information you’ll carry around all the time.
            a. At Student Health, you’d only need your school ID card.
               If elsewhere, they’d likely ask for your insurance card.
            b. How does one get a physical copy?
               i. https://wellness.ucsd.edu/studenthealth/insurance/Pages/FAQs.aspx Click on “How do I get a copy of my insurance card?” and follow the instructions.
         7. Provide a list of services?
         8. Does the comprehensive medical coverage include psychological or psychiatric services?
            a. On campus, CAPS doesn’t take insurance, but they will see students for short-term care (no fees charged). If a student needs long-term mental health care, CAPS will
refer to off-campus psychologists or psychiatrists, and SHIP will cover that care.

b. If mental health is taken care of by primary care, SHIP covers that as well.

b. SHIP “take it or leave it option” feedback

i. Explanation:
   1. Financial Aid Office (FAO) gives money to students’ accounts, not following up if students are putting it toward insurance or not.
   2. Will probably take a proposal to change it, from Charlotte Chiu and Dominick Suvonnasupa (president of A.S.) FAO will pay directly to SHIP. If a student wants it, that’s it. They won’t get the money in their account and then choose to waive it.
   3. Change is likely happening.
   4. Some campuses track the student SHIP enrollment. If FAO sees money isn’t being used toward insurance, they will take the money back, at Davis.

ii. Feedback
   1. There will be a lot of pushback from students – even the council felt that students needed that money, the $600. Some students find the point of waiving SHIP is that you can use that money toward tuition. Would rather keep the money they have now, according to most members that were present in council. 20% replied to a survey, which said they all wanted the current system. In the general meeting, they said it should stay that way.
   2. While I made clear that healthcare is important, none were in favor of the take it or leave it option, half were in favor of keeping the current system, and the other half abstained. Those who spoke on their vote said that the extra money goes into tuition anyway, and if it doesn’t, it likely goes towards other necessities. In other words, they rely on that money to even attend UCSD, and having to go home to get care and not being able to attend UCSD aren’t very different.

iii. Question: Not all applications will be audited. Say they’re approved, and then find their coverage is insufficient. Whose responsibility is it? The student’s.

iv. FAO could possibly change to this option, and then leave packages alone.

V. New Business
   a. Sub-Committee Updates
      i. Student Health Insurance Plan (SHIP)
         1. Couple changes to the charter, that CSUs and CCs could join, but that’s still in discussion.
         2. Increasing UC SHIP amount of reserve money at UCOP level. No action taken on that yet.
b. Department Updates
   i. Health Promotion Services – NCHA subject line
      1. Email will be sent out to 11,000 students to take the National College Health Assessment in early Winter Quarter.
      2. “How Healthy is Our Campus? Take this UCSD survey for a chance to win $$”.
      3. Great American Smokeout November 19, this Thursday. SHAs will be tabling on Library Walk.
         a. During spring cigarette butt pickups, they picked up 33,000 cigarette butts on campus within 3 hours.
         b. Cigarette butts are litter too.
         c. Is there a hotline? 1-800-NOBUTTS. If they’re registered, they can see our RD for smoking cessation products given for free.
         d. No designated areas for smoking on campus.
         e. Working on policy for giving out tickets and reporting.

   c. Student Representative Updates

VI. Reminders
   a. Action Plans
      i. Send any agenda items to Kaitlin Cheng (kncheng@usd.edu)

   b. Reminders
      i. Future WCSAB & SHIP Meeting(s): Winter Quarter 2015
         1. SHIP Sub-committee Meeting Times: 4:00PM – 5:00PM
         2. WCSAB Meeting Times: 5:00PM – 6:00PM
         3. (Week 2) Monday, January 11, 2016 @ Murray’s Place (SHS Conference Rm)
