NOTE: If you have any symptoms, have been exposed to someone diagnosed with any of these infections, or have concerns about anal or oral exposure, please make an appointment with a health care provider. Same-day appointments are available at SHS by calling your primary care provider group or 858-534-8089.

What to Do Next
2. If this is your first visit to SHS, go to the lobby computers, sign in and log on to “Forms” to accept our Notice of Privacy Practices Agreement. Return to the lab.
3. Check off the tests you want below.
4. Give this order form to the laboratory receptionist. Testing can be done until 3:30 pm Mon-Fri.

STI testing is generically recommended once per year. You may not self-order testing if your last test was less than 3 months ago.

Test results will be available in 3–5 days. A message about the results will be sent through your MyStudentChart. You must register and activate MyStudentChart in order to receive a message about your results. If you do not have a MyStudentChart account, you will need to pick up copies of your labs at Medical Records.

No actual lab results will be released. If you wish to obtain a copy of your result, please submit a Medical Record Request through MyStudentChart. A Medical Record Request can be found after selecting Medical Records under the Health Tab.
